Philadelphia, Pa. 19106

SUBJECT: Request for Site Inspection

DATE: FEB 14 1980

FROM: Patricia M. Corbett *pmc*
Solid Waste Management Program (3AH30)

TO: Jeffrey Hass, Acting Chief,
Environmental Emergency Branch (3SA00)

SEMS DocID

2334589

Attached is the preliminary assessment form and additional information for VA-56 - Liquid Waste Disposal of Richmond, Virginia. The site was inspected on April 11, 1979 for PCB's. No PCB's were found during that inspection, but the State is not assured of their absence and would like EPA to pursue the investigation further.

Please inform me of any action you plan to take so I can let the State know what is happening.
